

柔道部 judo club

Our judo club practices more than five days a week. There about 20 members in our club. We practice at the first floor of the budokan in our school. It is not big but we are thankful for the place that we can practice judo hard. Our coaches teach us how to be more stronger very hard. So we have been champions in the local tournament several times. And some of us made great results in the prefectural tournament. If you are interested, come to the judo-jo. If you practice very hard, I think you can be a good judoka.

We welcome you.
